Introduction

This report analyzes 2022 World Development Indicators data (World Bank 2024). We focus on GDP per capita, life expectancy, and unemployment rate.

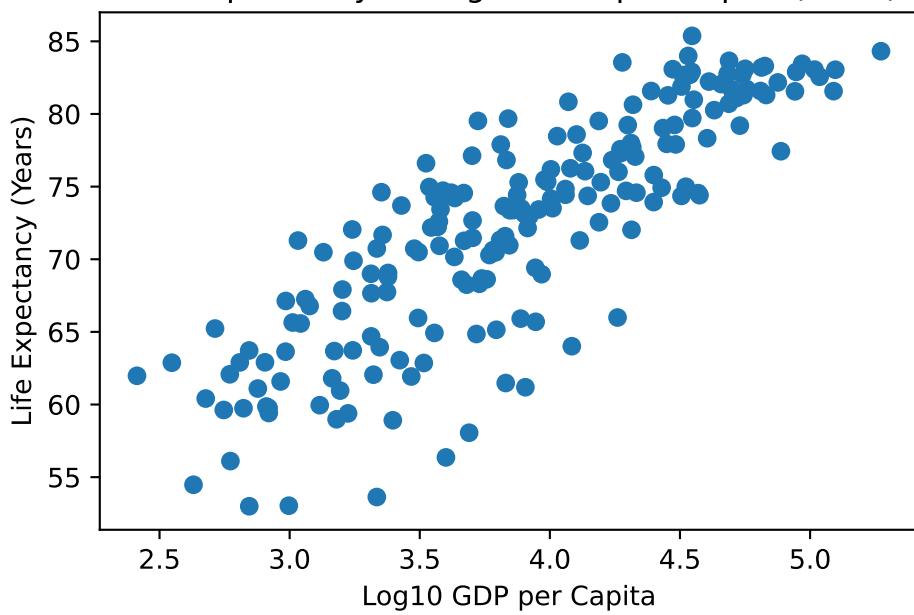

Analysis

	gdp_per_capita	life_expectancy	unemployment_rate
count	203.000000	209.000000	186.000000
mean	20345.707649	72.416519	7.268661
std	31308.942225	7.713322	5.827726
min	259.025031	52.997000	0.130000
25%	2570.563284	66.782000	3.500750
50%	7587.588173	73.514634	5.537500
75%	25982.630050	78.475000	9.455250
max	240862.182448	85.377000	37.852000

Distribution of GDP per Capita (2022)

Life Expectancy vs Log10 GDP per Capita (2022)

Conclusion

GDP per capita is highly skewed.

Income positively relates to life expectancy.

Unemployment varies widely across countries.
